

Gallup Student Poll

Engaged Today – Ready for Tomorrow

HIGHLAND ELEMENTARY SCHOOL

FALL 2017 SCORECARD

INTRODUCTION

The Gallup Student Poll is a 24-question survey that measures the engagement, hope, entrepreneurial aspiration and career/financial literacy of students in grades five through 12. The Gallup Student Poll includes noncognitive metrics with links to student success. This scorecard reflects results from surveys completed in U.S. public schools.

Engagement: The involvement in and enthusiasm for school.

Hope: The ideas and energy students have for the future.

Entrepreneurial Aspiration: The talent and energy for building businesses that survive, thrive and employ others.

Career/Financial Literacy: The information, attitudes and behaviors that students need to practice for healthy participation in the economy.

APPENDIX

SHARING GALLUP STUDENT POLL RESULTS

Gallup encourages schools and districts to share their Gallup Student Poll results with their local community and key stakeholders. Below are some guidelines for the public release of school, district and the overall convenience sample data and results.

- You can share the Gallup Student Poll participation results for your school and/or district. The N sizes on the scorecard represent the total number of respondents for your school or district. Your school or district participation rate is based on the total number of eligible students in your school or district. Students in fifth through 12th grade are eligible to participate in the Gallup Student Poll.
- Please include the Gallup Student Poll Methodology and Limitations of Polling. If most eligible students in fifth through 12th grade were polled, the district (or school) may indicate that the data represent a census.
- Please do not compare your school's or district's data to the overall line of data on your scorecard when publicly sharing results. Because the overall data in your school or district report are an aggregate of a convenience sample of all schools and districts that opted to participate in the Gallup Student Poll within that survey year, the data are not representative of the U.S. population of students in fifth through 12th grade and are thereby not fit for data comparisons.
- You can share district or school plans to use the data to inform strategies and focus.

GALLUP STUDENT POLL METHODOLOGY AND LIMITATIONS OF POLLING

The annual Gallup Student Poll is offered at no cost for U.S. schools and districts. The online poll is completed by a convenience sample of schools and districts each fall. Gallup does not randomly select schools participating in the annual Gallup Student Poll or charge or give these schools any incentives beyond receipt of school-specific data. Participation rates vary by school. The poll is conducted during a designated survey period and available during school hours Monday through Friday only. The Gallup Student Poll is administered to students in fifth through 12th grade. The Gallup Student Poll adds additional elements for understanding school success beyond cognitive measures.

The overall data from the annual administration of the Gallup Student Poll may not reflect responses from a nationally representative sample of students. The overall data are not statistically weighted to reflect the U.S. student population; therefore, local schools and districts should use the overall data and scorecards cautiously as a data comparison. School and district data and scorecards provide meaningful data for local comparisons and may inform strategic initiatives and programming, though the results are not generalizable beyond the participating school or district.
